

Public Notice  
Proposed Renewal of the Clean Air Act Permit Program Permit for  
the City of Marshall Power Plant

The City of Marshall Power Plant has requested that the Illinois Environmental Protection Agency (Illinois EPA) renew the Clean Air Act Permit Program (CAAPP) permit for its power plant located at 14<sup>th</sup> and Pine Streets in Marshall. The facility consists of ten internal combustion engine driven generators used to create electricity during periods of peak demand. The engines are fired by fuel oil. The CAAPP is Illinois' operating permit program for major sources of emissions, as required by Title V of the Clean Air Act. CAAPP permits are enforceable by the public, as well as the USEPA and Illinois EPA. The beginning of this public comment period also serves as the beginning date of the USEPA 45 day review period, provided the USEPA does not seek a separate proposed period. This permit may contain terms and conditions established pursuant to Title I of the federal Clean Air Act thereby making them combined Title V and Title I permits. The Illinois EPA is accepting comments on the draft permit.

Persons wanting more information may obtain copies of the draft permit and project summary at [www.epa.gov/region5/air/permits/ilonline.htm](http://www.epa.gov/region5/air/permits/ilonline.htm) (please look under All Permit Records, Title V, Renewal).
